The Company, as a security issuing company, undertakes to make public, as soon as possible, the Inside Information which directly concerns it, in a manner which enables fast access and complete, correct and timely assessment of the Inside Information by the public.

The Company shall not combine the disclosure of Inside Information to the public with the marketing of its activities.

4.1.2 Delay in the Public Disclosure of Inside Information

The Company may, on its own responsibility, delay disclosure to the public of Inside Information, in accordance with the terms established in the Market Abuse Regulation or other regulation that may replace it. In particular, according to such Regulation, the public disclosure of Inside Information may be delayed provided that all of the following conditions are met:

- b) delay of disclosure is not likely to mislead the public;
- c) the Company is able to ensure the confidentiality of that information.

In order to ensure the confidentiality of the Inside Information, the Company will control its access and take the necessary monitoring and protective measures established by law and those set out in the following sections 4.2 and 4.3 of these Regulations, on Monitoring and Protective Measures and Treatment of Confidential Documents, and in addition:

The meetings with analysts, investors or communication media shall be previously planned, so that the persons participating in such meetings do not disclose Inside Information that has not been previously disclosed to the market.

4.2 General Obligation to protect Inside Information

Without prejudice to the provisions of section 4.1 above, and to the prohibitions contained in section 4.4. below, all Obligated Persons, having access to Inside Information, have the obligation to protect it, taking the required measures to avoid such Information being used unfairly or abusively and, if appropriate, taking the measures that could be necessary to correct the consequences of an unfair or abusive use of it.

4.3 Specific obligations regarding Inside Information. Insider List.

The Company will draw up a list of all persons who have access to Inside Information, and who work for the Company or for the Logista Group under a corporate, commercial or labour relationship, or that perform tasks through which they have access to Inside Information, such as advisors, accountants or credit rating agencies.

In particular, during the studying, preparation and/or negotiation phases of any type of transaction, in which Inside Information or information likely to be considered as such is acknowledged or generated ("**Relevant Transaction**"), the following conduct shall be followed:

4.3.1 Qualification as Inside Information and Creation of the Insider List.

Officers in charge of the departments involved in the Relevant Transaction shall inform of this situation, confidentially, and as soon as possible, the General Secretariat, who, in coordination with the Finances Corporate Directorate, may analyse if such information should be qualified as Inside Information. The General Secretariat will inform the Officers involved in the Transaction of such situation.

If the information is qualified as Inside Information, each Officer involved in the Relevant Transaction shall submit to the General Secretariat a list of the employees under their control who will have access to the Inside Information, headed by themselves; which list shall be updated when appropriate.

Access to Inside Information by persons other than those detailed in section 3.1.1, including External Advisors, will require their previous signature of a Non-Disclosure Agreement, and their acceptance of the Prohibitions related to its use, in accordance with paragraph 4.5 following, in the terms stated in **Annex 2**.

Based on information received, the General Secretariat will draw up a section of the Insider List, according to the specific format stated in the applicable regulation, indicating, at least:

- a) the identity of the persons having access to the Inside Information;
- b) the reason for including that person in the Insider List.
- c) the date and time at which that person obtained access to Inside Information.
- d) the date on which the corresponding section of the Insider List was drawn up.
- e) any other information required by the applicable Law.

The Officers involved in the Relevant Transaction are responsible for reporting to the General Secretariat the following circumstances, in order to keep updated the Insider List:

- a) When there is a change in the reasons for a person appearing in said Register.
- b) When it is necessary to add a new person to the register, for having access to Inside Information.
- c) When a person included in the Insider List ceases to have access to Inside Information.

The date and the time of the change which generate the update, shall be recorded.

The Insider List will be divided into separate sections relating to different Inside Information. Each section of the Insider List shall only include details of individuals having access to the Inside Information relevant to that section.

Likewise, the Insider List shall contain, in a supplementary section, a list of persons who, by virtue of their position or duties, have access, at all times, to Inside Information ("**Permanent Insiders**").

The General Secretariat shall inform Permanent Insiders of their inclusion in such list.

The details of Permanent Insiders included in the supplementary section of the Insider List shall not be included in the other sections of the said list.

The details registered in the Insider List shall be kept by the Company under the terms and for the deadlines stated in the regulations in force, and will be available to the CNMV if required by it.

The General Secretariat shall inform the Obligated Persons of their inclusion in the Insider List, and of the other matters provided for in regulations on the protection of data of a personal nature. Likewise, the General Secretariat shall inform the Obligated Persons of all aspects required by the regulations in force, regarding their inclusion in an Insider List, due to their access to Inside Information, particularly of the infringements or sanctions and labour, administrative and criminal liabilities derived from its inadequate use, requesting their signature of the Non-Disclosure Agreement set forth in Annex 2.

4.3.2. Monitoring and protective measures

- a) The Investor Relations Directorate will monitor the trend of the Affected Securities or Financial Instruments and the news issued by professional disseminators of economic information and the media which could affect them.

If an unusual oscillation should occur in the negotiated prices or in the trading volume of the Affected Securities or Financial Instruments, the Investor Relations Directorate shall immediately inform the Chief Executive Officer of the Logista Group and the General Secretariat. The Company, where necessary and if there are reasonable indications that such oscillation is taking place as a consequence of the premature, partial or inaccurate disclosure of Inside Information, shall take appropriate steps, including its immediate public communication, to inform, in a clear and precise way, about the stage of the transaction, or include a preview of the information to be submitted, all without prejudice to the provisions contained in 4.1.2 of these Regulations (“Delay in the Public Disclosure of Inside Information”)

- b) The Company will subject the development of the transactions over Affected Securities or Financial Instruments, including the transactions in treasury stock by the Logista Group, to measures that avoid the investment or divestment decisions being affected by the knowledge of Inside Information.

4.4 Treatment of Confidential Documents

Any Obligated Persons having Confidential Documents shall act with diligence in their use and handling, and shall be held responsible for their custody and preservation and for keeping their confidentiality. To these purpose, all Confidential Documents shall be processed and filed providing measures that guarantee the confidentiality of the Inside Information, and shall be transmitted exclusively to those persons who, for a concrete operation, were included in the Insider List.

4.5 Prohibitions related to Inside Information

1) Insider Dealing:

Any person who has Inside Information may not:

- a) Carry out, or try to carry out, any kind of operation (acquiring, transmitting, disposing), for his own account or for the account of third parties, directly or indirectly, concerning the Affected Securities or Financial Instruments, as well as to amend or cancel an order concerning the same.
- b) Recommend or induce another person to acquire, transmit, dispose, cancel or amend an order of acquisition or disposal concerning the Affected Securities or Financial Instruments, using Inside Information.

The use of the recommendations or inductions referred to in this paragraph b) is considered an Insider Dealing Transaction, when the person using the recommendation or inducement knows or ought to know that it is based on Inside Information.

2) Unlawful Disclosure of Inside Information:

Any communication of Inside Information to another person shall be unlawful, except where such communication occurs in the normal exercise of his/her work, profession or functions and in compliance with the provisions of the Market Abuse Regulation and this IRC.

5. CONDUCT REGULATIONS REGARDING PERSONS DISCHARGING MANAGERIAL RESPONSIBILITIES AND THEIR CLOSELY ASSOCIATED PERSONS

5.1. Blackout Periods

Without prejudice to the prohibitions set out in previous section 4.5, Persons Discharging Managerial Responsibilities and their Closely Associated Persons will refrain from carrying out Personal Transactions, directly or indirectly, for their own or for the account of a third party, within the thirty natural days preceding the scheduled date of publication by the Company of the Half Year or Annual Financial Statements, or of the interim management declaration. However, the Company may authorise, exceptionally, the conduct of transactions in the cases laid down in the Market Abuse Regulation or regulations replacing it.

5.2. Communication of Personal Transactions

Persons Discharging Managerial Responsibilities and their Closely Associated Persons will be able to carry out Personal Transactions out of the Blackout Periods stated in the previous section, always that they do not have Inside Information.

2) Personal Transactions of Officers and their Closely Associated Persons:

5.3. Portfolio Management Contracts

When Persons Discharging Managerial Responsibilities or their Closely Associated Persons may sign a discretionary portfolio management contract, such contract shall be deemed to be a Personal Transaction.

Such contracts shall contain an express instruction to the manager of not conducting transactions over Affected Securities and Financial Instruments which are prohibited by these Regulations.

As an exception to the provisions of the preceding paragraph, discretionary portfolio management contracts which do not contain such instruction could be signed, if they are concluded at a time when the Persons Discharging Managerial Responsibilities or their Closely Associated Persons are not in possession of any Inside Information, and if such contracts absolutely and irrevocably guarantee the following:

- (i) That the transactions will be carried out without intervention of any of the above mentioned persons, and thus exclusively under the professional criteria of the manager, and according to criteria applied in general to customers with similar financial and investments profiles; and
- (ii) That the abovementioned persons will be immediately notified of the execution of the transaction over Affected Securities and Financial Instruments, in order that such persons can fulfil their communication duty, according to the provisions of section 5.2 above (“Communications of Personal Transactions”).

6. CONDUCT REGULATIONS REGARDING THE MANIPULATION WITH TRADING OF THE AFFECTED SECURITIES OR FINANCIAL INSTRUMENTS

The Obligated Persons shall refrain from preparing or conducting practices that distort pricing of the Affected Securities or Financial Instruments (“Market Manipulation”) on a regulated market, or in the relevant organized trading facility.

The following behaviours shall be considered as practices that distort pricing:

- a) Any transactions or orders that give or are likely to give false or misleading signals as to the supply of, demand for, or price of, the Affected Securities or Financial Instruments.
- b) Any transactions or orders that secure, or are likely to secure, at an abnormal or artificial level, the price of the Affected Securities or Financial Instruments

- c) Any transactions or orders that employ fictitious devices or any other form of deception or contrivance which affect or are likely to affect the price of the Affected Securities or Financial Instruments.
- d) Disseminating information, through the media, including the Internet, or by any other means, which gives or is likely to give false or misleading signals as to the supply of, demand for, or price of, the Affected Securities or Financial Instruments, or is likely to secure the price of the Affected Securities or Financial Instruments at an abnormal or artificial level, including the dissemination of rumours, where the person who made the dissemination knew, or ought to have known, that the information was false or misleading.

Likewise, the following practices will be considered as preparing or conducting practices that distort pricing, that is, they constitute Market Manipulation:

- a) The conduct by a person, or persons acting in collaboration, to secure a dominant position over the supply of or demand for Affected Securities or Financial Instruments, resulting in the direct or indirect formation of purchasing or selling prices or other non-equitable conditions.
- b) The sale or purchase of Affected Securities or Financial Instruments at the opening or closing of the market, which has or is likely to have the effect of misleading investors who act on the basis of the prices displayed, including the opening or closing prices.
- c) Taking advantage of occasional or regular access to the media, whether traditional or electronic, expressing a view on an Affected Securities or Financial Instrument or, indirectly, on the issuer thereof, after having taken positions on the Affected Securities or Financial Instrument, and having benefited from the repercussions of the view expressed on the price of said Affected Securities or Financial Instrument without having simultaneously informed the public opinion of this conflict of interest in the right and effective manner.
- d) Any other practice that distorts pricing, when foreseen by the CNMV, by means of the relevant regulation (Circular Letters).

It shall not be considered as Market Manipulation the conducting of transactions or operations, according to accepted market practices, approved by the CNMV by means of the relevant regulation (Circular Letters) (e.g. liquidity agreements), nor the transactions carried out in compliance with buy-back programmes under the terms established by law.

7. CONDUCT REGULATIONS REGARDING TREASURY STOCK TRANSACTIONS

The Company's treasury stock transactions will normally be carried out through Shares Buy-Back Programmes of those established in the Market Abuse Regulations or Liquidity Contracts Regulations that meet the characteristics of CNMV Circular 1/2017 of 26 April, on liquidity contracts.

Without prejudice to this, the Board of Directors may, exceptionally and in accordance with the needs of the Company, authorise the performance of discretionary operational treasury stock, and in this case must expressly establish all the necessary precautions to ensure that such operation takes place in full respect of the rules laid down in the Market Abuse Regulation or regulations that complement or replace it.

8. ENFORCEABILITY AND EFFECTS OF BREACH

These Internal Regulations of Conduct are enforceable against the Obligated Persons and shall be communicated to these persons by the General Secretariat, when appropriate, and the document attached as Annex 1 to these Regulations shall be signed by each of the Obligated Persons.

The General Secretariat shall inform the Audit and Control Committee of the measures taken to promote knowledge and ensure compliance with these Regulations, its degree of compliance and the main incidents that have occurred.

The Obligated Persons shall also act, in every moment, in accordance with the legal regulations and with the stock market regulations.

The failure to comply with the provisions of the Internal Regulations of Conduct may be considered as caused of dismissal on disciplinary grounds in the common and special labour order, as violation of the contractual good faith, and abuse of the confidence in the development of the work, as well as cause of termination of any commercial relationship that may bound Directors to the Company.

The above will be understood without prejudice of the breach that may derive of the provisions of the Securities Market Law and the civil or criminal responsibility as may apply to the noncompliant party in each case.

The Audit and Control Committee may, in exceptional cases and for justified reasons, waive certain obligations set out in these Regulations, provided that such exemption does not imply a breach of the applicable legislation.

9. LANGUAGE

These Regulations shall be published in Spanish and English, prevalent being the first, in case of divergence between the two languages.

10. EFFECTIVE DATE

These Regulations shall enter into force on 29 April 2020, when the Internal Regulations for Conduct in the Securities Market, of 27 September 2016, shall be repealed.
